# CONTENTS

## No. 1

S. GRONOWITZ, C. WESTERLUND, T. HÖGBERG, S. RÄMSBY, H. HALL and U. H. LINDBERG: Synthetic and receptor binding studies on bicyclic annelated systems related to cyproheptadine ..... 1

P. FYHR and A. BRODIN: An experimental model for kinetic preformulation studies on oxidation sensitive substances ..... 15

K. UEKAMA, K. UDO, T. IRIE, A. YOSHIDA, M. OTAGIRI, H. SEO and M. TSURUOKA: Improvement of dissolution and absorption characteristics of indomethacin by water-soluble α-cyclodextrin-epichlorohydrin polymer .... 27

S. ANDERSSON: Cytochromes P-450 in biosynthesis of bile acids and metabolism of Vitamin $D_3$ ..... 37

C. BÄÄRNHIELM: Metabolism of felodipine ..... 38

N. DAOUD: Reversed-phase LC systems for direct injection of untreated blood plasma samples ..... 39

## No. 2

### SESSION 1: MAGNESIUM STEARATE AND TABLET LUBRICATION

M. H. RUBINSTEIN: Lubricant behaviour of magnesium stearate ..... 43
H. SUCKER and B. MECHTERSHEIMER: Evaluation of lubricating properties 44
M. E. JOHANSSON: Granular magnesium stearate as a lubricant ..... 45
P. YORK and M. S. H. HUSSAIN: Role of crystallographic and physical properties of magnesium stearate in lubrication ..... 46

### SESSION 2: COMPRESSION AND CONSOLIDATION

E. N. HIESTAND and D. P. SMITH: Mechanisms of tablet formation and methods to study the compaction process ..... 47
J. J. BENBOW: Bonding mechanisms in compaction and consolidation ..... 48
C. NYSTRÖM: Factors of importance for tablet strength ..... 49

### SESSION 3: MECHANICAL PROPERTIES OF TABLETS

J. M. NEWTON: The mechanical strength of tablets ..... 51
G. ALDERBORN: The influence of volume reduction mechanisms on specific surface area and strength isotropy ..... 52
J. E. REES: Viscoelastic phenomena in tabletting ..... 53
S. C. MANN: Investigation of the effect of individual segments of the tabletting cycle on the capping and lamination of pharmaceutical tablets ..... 54

## SESSION 4: GRANULATION

H. G. KRISTENSEN: Mechanisms of wet granulation ..... 56
H. LEUENBERGER, G. IMANIDIS and M. USTERI: Monitoring the granulation process by power consumption measurements ..... 57
T. SCHAEFER, H. H. BAK, A. JAEGERSKOU, A. KRISTENSEN, J. R. SVENSSON, P. HOLM and H. G. KRISTENSEN: Granulation equipment. High speed mixers – an experimental comparison ..... 58
J. M. NEWTON: The preparation of spherical granules by extrusion/spheronisation ..... 59

## SESSION 5: STARTING MATERIALS

C. F. LERK and H. VROMANS: Some possibilities to improve tabletting properties of starting materials ..... 60
R. HÜTTENRAUCH: Aspects of molecular order in tabletting ..... 61
N. G. STANLEY-WOOD: Physical characterisation of materials ..... 62
P. YORK and D. J. W. GRANT: Crystal engineering of pharmaceutical particulate solids ..... 63

## SESSION 6: TABLET MACHINES

P. DREW, M. L. SISSON and G. J. ATKIN: The usefulness of tablet simulators in process development and troubleshooting ..... 65
G. C. COLE: The monitoring and control of tabletting processes in large scale production ..... 66
J. HINZPETER: New trends in tablet machine development ..... 67

## POSTERS

E. DOELKER, R. GURNY, D. MORDIER, J. P. HART, J. E. REES and M. E. AULTON: Do the compression properties of celluloses depend on their crystallinity ..... 68
M. A. DONSMARK: Optimization and validation of the batch wet mass granulation process ..... 69
J. C. GUYOT and A. DELACOURTE: Computer optimization in tablet formulation ..... 70
A. W. HÖLZER: Sodium stearyl fumarate (Pruv™) a successful alternative to magnesium stearate ..... 71
Mª R. JIMÉNEZ-CASTELLANOS and J. M. BORRERO: Study of five excipients for direct compression. II. Influence of magnesium stearate and Aerosil 200 ... 73
F. KOMPAORÉ, G. PONCHEL, A. BOELLE and D. DUCHENE: Investigation of bonding mechanisms implied in cosmetic compact cohesion ..... 74
N.-O. LINDBERG and G. GRUDÉN: Granulation of a hygroscopic drug in a domestic type mixer ..... 75
K. LÖVGREN and P. J. LUNDBERG: Influences of process parameters on pellets prepared by extrusion and spheronization ..... 76
K. MALMQVIST, S. KULSTAD, C. HERMANSSON, P. HÖGLUND and Z. G. WAGNER: $^{99}Tc^{m}$ labelling of a controlled release preparation ..... 77

J. M. NEWTON, M. J. GAMLEN and P. STANLEY: Tensile strength of single crystals of ammonium sulphate ..... 78
P. NILSSON, M. WESTERBERG and C. NYSTRÖM: Formulation of tablets from sparingly soluble drugs in ordered mixtures ..... 79
P. PARONEN, E. LAINE and P. KAHELA: Structural changes of cyclophosphamide in tablet processing ..... 80
G. PONCHEL and D. DUCHENE: Intrinsic compressibility of substances of pharmaceutical interest ..... 81
A. P. SAM, E. MIDDELBEEK and L. BAAIJENS: Mixing of free-flowing powders in low and high shear mixers ..... 83
C. TUFVESSON, N.-O. LINDBERG and L. OLBJER: Extrusion of an effervescent granulation with a twin screw extruder, Baker Perkins MPF 50 D ..... 84
J. J. TUKKER, M. DEENSTRA and CH. F. GUSDORF: An S-R theophylline tablet, based on individually coated crystals: influence of food on the release *in vivo* ..... 85

## No. 3

P. FYHR and A. BRODIN: The effect of anaerobic conditions on epinephrine stability ..... 89

A. THALÉN: Epimers of budesonide and related corticosteroids. III. Synthesis and structure elucidation by carbon-13 and proton nuclear magnetic resonance spectroscopy ..... 97

K. ELLSTRÖM and H. NYQVIST: Non-isothermal stability testing of drug substances in the solid state ..... 115

H. EMILSSON, H. SELANDER and J. GAARDER: Synthesis and antihypertensive activity of some 3-substituted 4*H*-1,2,4-triazoles ..... 123

M. A. RAGGI, L. NOBILE, D. LACCHÉ, V. CAVRINI and G. VARANI: Spectrofluorimetric assay of aluminium in pharmaceutical formulations by means of the Morin reagent ..... 135

G. NILSSON: Effects of bisulphite and the stability of adrenaline ..... 141

M. HASSAN: Biological fate of busulfan. Analytic, kinetic and metabolic studies ..... 142

T. ARVIDSSON: Liquid chromatographic systems for direct injection of untreated blood plasma samples in drug analysis ..... 143

K. LUTHMAN: Synthetic and structural studies of KDO-analogues. A new inhibitor of CMP-KDO synthetase ..... 144

## No. 4

A. KROTOWSKA, G. NORDVALL, C. MELLIN, A. M. JOHANSSON, U. HACKSELL and C. J. GROL: Dopamine $D_2$-receptor affinities of resolved C1-dimethylated 2-aminotetralins ..... 145

C. MELLIN, Y. LIU, U. HACKSELL, L. BJÖRK and N.-E. ANDÉN: A C2-methylated derivative of the 5-hydroxytryptamine-receptor agonist 8-hydroxy-2-(dipropylamino)tetralin (8-OH DPAT) ..... 153

B. LINDEKE, R. DAHLBOM and B. RINGDAHL: Acetylene compounds of potential pharmacological value. Part XL ..... 161

S.-O. THORBERG, H. HALL, C. ÅKESSON, K. SVENSSON and J. L. G. NILSSON: Aminochromans: Potent agonists at central dopamine and serotonin receptors ..... 169

S.-O. THORBERG, S. AHLÉNIUS, L. JOHANSSON, J. LUNDSTRÖM, C. SÄFHOLM, A. TEILING and M. LENNMARK: O-Methylated catechol metabolites of 3-(3-hydroxyphenyl)-N-propylpiperidine (3-PPP): Synthesis, pharmacological and acute toxicological evaluation ..... 183

H. SALOMIES: Oxidation of β-blocking agents. Part V ..... 193

G. WESSEL, B. EL-MENSHAWI, A. SAEED and G. MAHRAN: Toxic pyrrolizidine alkaloids of certain boraginaceous plants ..... 199

B. FRANSSON: Ion-pair liquid chromatography of peptides, analytical and preparative aspects ..... 205

H. GHANTOUS: Distribution of halothane, some organic solvents, and their metabolites in rodents. Uptake in the fetus and amniotic fluid, and in the respiratory tract ..... 206

T. LAAKSO: Preparation and properties of polyacryl starch microparticles. Potential drug carriers in the treatment of lysosomal parasitic diseases ..... 208

## Nr. 5

M. DAHLUND and Å. OLIN: An estimate of the complexing ability of olsalazine from a study of its complexation of $Cu^{2+}$ ..... 209

M. DAHLUND and Å. OLIN: Chemical equilibria in aqueous solutions of olsalazine, 3,3′-azobis(6-hydroxybenzoic acid) ..... 219

H. BUNDGAARD and N. MØRK NIELSEN: Prodrugs as drug delivery systems. 74. Facile hydrolysis of *N*-(acyloxymethyl)amide derivatives and implications for the design of prodrugs of NH-acidic compounds and of carboxylic acids ..... 233

I. NAHRINGBAUER: Interfacial tension. Part I. An apparatus using the pendant drop method ..... 247

F. SANDBERG, H. DUTSCHEWSKA, V. CHRISTOV and S. SPASSOV: *Spondianthus preussii* var. *glaber* Engler. Pharmacological screening and occurrence of triterpenes ..... 253

A. CHIARINI, P. VALENTI, G. FABBRI and P. DA RE: Chromone and xanthone derivatives related to Fostedil ..... 257

H. TOMIDA, M. SHINOHARA, N. KUWADA and S. KIRYU: *In vitro* release characteristics of diclofenac and hydrocortisone from Pluronic F-127 gels .... 263

## No. 6

G. D. DAVES, Jr.: The occurrence of natural stable analogues. Implications for the design of therapeutic agents ..... 273

T. HÖGBERG, S. RÄMSBY, S.-O. ÖGREN and U. NORINDER: New selective dopamine D-2 antagonists as antipsychotic agents. Pharmacological, chemical, structural and theoretical considerations ..... 287

P. LINDBERG, A. BRÄNDSTRÖM and B. WALLMARK: Omeprazole, a new antiulcer drug with a unique mechanism of action ..... 327

L. Å. SVENSSON: Bambuterol- a prodrug-prodrug with built-in hydrolysis brake ..... 331
